CONTENTS OF VOLUME 90

Vol. 90C, *No.* 1

Review

Antonio Morello — 1 The biochemistry of the mode of action of drugs and the detoxication mechanisms in *Trypanosoma cruzi*

General Papers

Kenichi Kai, Shinichi Kobayashi, Eiji Uchida, Hitoshi Sakai, Einosuke Tanaka, Norimitsu Kurata and Hajime Yasuhara — 13 The effects of malotilate on hepatic drug metabolizing systems in different strains of rats

Richard J. Wenning and Richard T. Di Giulio — 21 Microsomal enzyme activities, superoxide production, and antioxidant defenses in ribbed mussels (*Geukensia demissa*) and wedge clams (*Rangia cuneata*)

S. N. Ayrapetyan, V. L. Arvanov and S. B. Maginyan — 29 The pharmacological characteristics of two types of cholinoreceptors in the membrane of dialyzed neurons

Gary A. Pascoe and Maria Almira Correia — 41 Role of gastrin/pentagastrin in regulation of intestinal cytochrome P-450

Katherine G. Anitole, Paul L. Stahle, Carolyn S. Ridenour, Nicholas T. Lappas and Kenneth M. Brown — 47 Chlorpromazine-sensitive developmental processes in the sea urchin, *Lytechinus pictus*—I. Inhibition of cleavage, gastrulation and primary mesenchyme cell differentiation

Katherine G. Anitole, Cheryl L. Butler, Nicholas T. Lappas and Kenneth M. Brown — 55 Chlorpromazine-sensitive developmental processes in the sea urchin, *Lytechinus pictus*—II. Effects of neuroactive agents on the susceptibility of the gastrulation process to chlorpromazine

M. P. Bedoya, C. Toledo, M. de Vicente and M. P. González — 61 Comparative study of GABA-T from glial cells, neuronal perikarya cells and synaptosomes

H. A. Elo, H. Hervonen and P. Ylitalo — 65 Comparative study on cerebrovascular injuries by three chlorophenoxyacetic acids (2,4-D, 2,4,5-T and MCPA)

Amal Ali Rageb Radi and B. Matkovics — 69 Effects of metal ions on the antioxidant enzyme activities, protein contents and lipid peroxidation of carp tissues

M. Yanagawa, M. Fujiwara, I. Takabatake, Y. Muneoka and M. Kobayashi — 73 Potentiating effects of some invertebrate neuropeptides on twitch contraction of the radula muscles of a mollusc, *Rapana thomasiana*

Yury G. Kaminsky and Elen A. Kosenko — 79 Diurnal changes in succinate and D-3-hydroxybutyrate dehydrogenase activities of rat liver mitochondria after chronic alcohol consumption and withdrawal

Yumi Ishizaki and Yoshishige Umebachi — 83 Level changes of β-alanine, dopamine, and N-β-alanyldopamine during the pupal stage of *Papilio xuthus* (Lepidoptera:Papilionidae)

Edwin A. Martinez, Margaret Murray, Michael K. Leung and George B. Stefano — 89 Evidence for dopaminergic and opioid involvement in the regulation of locomotor activity in the land crab *Gecarcinus lateralis*

Issei Takayanagi, Katsuo Koike, Mie Nakamura and Yoshiko Horie — 95 Effects of cooling on alpha-1-adrenoceptor mechanisms in rat aorta

Mümtaz İşcan and Asuman Karakaya — 101 Cadmium sensitivity differences between liver microsomal drug metabolizing enzyme systems of guinea-pig and rat

Claire Daemers-Lambert and Christian Grandfils	107	Action potential of the median giant fibre of the earthworm, *Lumbricus terrestris*, as a pharmacological test of the radiolabelled TTX-derivatives activity
Charles H. V. Hoyle and Michael J. Greenberg	113	Actions of adenylyl compounds in invertebrates from several phyla: evidence for internal purinoceptors
Fredrik Ehrenström and Rune Berglind	123	Determination of biogenic amines in the water flea, *Daphnia magna* (Cladocera, Crustacea) and their diurnal variations using ion-pair reversed phase HPLC with electrochemical detection
Zia J. Penefsky	133	Effects of glucocorticoids and catecholamines on maturing rat heart
William G. Brogdon	145	Microassay of acetylcholinesterase activity in small portions of single mosquito homogenates
J. Luz and M. A. Griggio	151	The effect of benzodiazepine on the increase of oxygen consumption in cold exposed rats
L. Webb	155	Studies on the apparent detoxification of sarcophytoxide by the prosobranch mollusc *Ovula ovum*
Jouni Sirviö, Antti Hervonen and Paavo J. Riekkinen	161	Cholinergic binding in the hippocampus of the aging male rat
John A. Donald	165	The innervation of the gills of the stingarees *Urolophus mucosus* and *U. paucimaculatus* (Urolophidae, Elasmobranchii)
Zeinab El Bakary, Suzel Fuzeau-Braesch and Christian Papin	173	Detection of biogenic amines and nychthemeral variations in the scorpion *Leiurus quinquestriatus*
Julio-Gabriel Prieto, Juan-Pablo Barrio, Gloria Gómez and Berta Melcón	179	Prediction of the effect of ofloxacine on intestinal absorption: effect of the body weight and substrate concentration
M. A. K. Lafi and L. D. Leake	183	Tonic and rhythmic contractions induced by dopamine and related amines in rat vasa deferentia are pharmacologically separable
M. P. Ireland	189	A comparative study of the uptake and distribution of silver in a slug *Arion ater* and a snail *Achatina fulica*
M. Peral de Bruno, P. Lebenshon de Chialvo and A. Coviello	195	Effects of angiotensin II on isolated toad (*Bufo arenarum*) aortic rings
T. Gomez, R. Rial, A. Bolaños and M. Molina	203	The prophylactic effect of diphenylhidantoin in the kindling effect on reptiles (*Gallotia galloti*)
Robert B. Hill and Philip D. Langton	207	Use of a sucrose gap apparatus to record electrical responses of gastropod radular protractor muscle to FMRFamide
Ann M. Burnell and Noel P. Wilkins	215	An investigation of the *in vitro* inhibition of acetylcholinesterase by the carbamate inhibitor eserine sulphate in eserine resistant strains of *Drosophila melanogaster*
N. R. Price	221	Insecticide-insensitive acetylcholinesterase from a laboratory selected and a field strain of housefly (*Musca domestica*) (L.)
Ratana Chotesangasa, Michiharu Kamiyoshi, Katuhide Tanaka, Hiroshi Tomogane and Akira Yokoyama	225	Enhancement of the response of hen granulosa cells to LH with norepinephrine *in vitro*
G. E. Duke, S. B. Chaplin, H. Hunt and L. K. Wiard-Bauer	231	The influence of avian pancreatic polypeptide on gastric secretion and motility in red-tailed hawks (*Buteo jamaicensis*)

Yong-Hua Ji, Yoshiaki Kimura, Ke Hsu and Susumu Terakawa 237 Purification and the partial amino acid sequence of an insect neurotoxin from the venom of scorpion *Buthus martensi* Karsch

Asuman Karakaya and Mümtaz İşcan 241 Effect of cadmium on pulmonary and renal microsomal drug metabolizing enzymes of the guinea-pig

Jouni Sirviö, Antti Valjakka, Jukka Jolkkonen, Antti Hervonen and Paavo J. Riekkinen 245 Cholinergic enzyme activities and muscarinic binding in the cerebral cortex of rats of different age and sex

Hajime Murakami, Masakazu Sano, Takashi Tsukimura and Akira Yamazaki 249 The relaxation induced by indole and nonindole 5-HT agonists in the molluscan smooth muscle

Jana Drnková, Olga Nováková, Václav Pelouch, Bohuslav Ošťádal and Václav Kubišta 257 The effect of isoprenaline on the phospholipid content of the compact and spongious musculature of the carp ventricular myocardium

D. Burton 263 Further assessment of a pharmacological effect of Tris buffer

Ibrahim M. Rajjo, Steven R. Vigna and Joe W. Crim 267 Actions of cholecystokinin-related peptides on the gallbladder of bony fishes *in vitro*

M. Knipper and H. Breer 275 Subtypes of muscarinic receptors in insect nervous system

A. Mitsacos and P. E. Giompres 281 L-glutamate binding sites in the cerebellum and electric lobes of *Torpedo marmorata*

Report

R. J. Walker 285 Satellite Symposium of the 2nd World Congress of Neuroscience—Neurobiology of invertebrates: transmitters, modulators and receptors

Vol. 90C, *No.* 2

Mini Review

George B. Stefano 287 The evolvement of signal systems: conformational matching a determining force stabilizing families of signal molecules

General Papers

L. E. Young, R. E. Young and D. A. P. Bundy 295 Ultrastructural and neuropharmacological findings in the nerve/muscle system of a digenean (*Cercaria caribbea LXXI* Cable)

Norio Suzuki, Ken-ichi Yoshino, Masanori Kurita, Kohji Nomura and Masaaki Yamaguchi 305 A novel group of sperm activating peptides from the sea urchin *Glyptocidaris crenularis*

Kevin A. Francesconi, John S. Edmonds and Bruce G. Hatcher 313 Examination of the arsenic constituents of the herbivorous marine gastropod *Tectus pyramis*: isolation of tetramethylarsonium ion

Shu-Jen Chen, Rita Spathis and Jakob Schmidt 317 Binding sites for [^{3}H]-acetylcholine and ^{125}I-α-bungarotoxin in the optic ganglion of *Loligo pealii*

Paul Shonnard, Tom Ary and Kenton M. Sanders 325 Influence of prostaglandins on electrical and mechanical activities of gastric muscles of *Bufo marinus*

R. D. Gulati, C. W. M. Bodar, A. L. G. Schuurmans, J. A. J. Faber and D. I. Zandee 335 Effects of cadmium exposure on feeding of freshwater planktonic crustaceans

C. W. M. Bodar, I. van der Sluis, P. A. Voogt and D. I. Zandee	341	Effects of cadmium on consumption, assimilation and biochemical parameters of *Daphnia magna*: possible implications for reproduction
Toshio Matsuoka, Hiroshi Takeuchi, Noboru Yanaihara, Eisuke Munekata and Yasuo Ariyoshi	347	Effects of synthetic biologically active peptides on giant neurones identified in the left buccal ganglion of an African giant snail (*Achatina fulica* Férussac)
Akira Warashina, Tatsuya Ogura and Shozo Fujita	351	Binding properties of sea anemone toxins to sodium channels in the crayfish giant axon
Kazuo Shiomi, Mitsuo Aoyama, Hideaki Yamanaka and Takeaki Kikuchi	361	Chemical forms of arsenic in sponges, sea anemones and sea hare
Jalal Keshmirian and Thomas Nogrady	367	Rotifer neuropharmacology vs catecholaminergic pharmacology of the abnormal sessile behaviour of *Brachionus plicatilis*
G. J. Kosanke, W. W. Schwippert and T. W. Beneke	373	The impairment of mobility and development in freshwater snails (*Physa fontinalis* and *Lymnaea stagnalis*) caused by herbicides
Fred Punzo	381	Physiological amino acids in the central nervous system of the tarantulas, *Aphonopelma chalcodes* and *Dugesiella echina* (Orthognatha: Theraphosidae)
E. Scemes and E. G. Mendes	385	Pharmacology of the radial neuromuscular system of *Liriope tetraphylla* (Hydrozoa, Trachymedusae)
Takashi Aoki and Hiroshi Oya	391	Acivicin inhibits *Crithidia fasciculata* growth in a serum-free medium and inactivates carbamoyl-phosphate synthetase II *in vivo*
Koji Yashiro, Yasunaga Kameyama, Masako Mizuno and Yutaka Yokota	397	Inducing effects of chronic administration of isoproterenol on 1-acyl-*sn*-glycero-3-phosphate and 1-acyl-*sn*-glycero-3-phosphocholine acyltransferases in rat parotid salivary gland
R. I. Samuels, S. E. Reynolds and A. K. Charnley	403	Calcium channel activation of insect muscle by destruxins, insecticidal compounds produced by the entomopathogenic fungus *Metarhizium anisopliae*
Giovanni B. Principato, Vincenzo Talesa, Elvio Giovannini, Rita Pascolini and Gabriella Rosi	413	Characterization of the soluble cholinesterase from *Squilla mantis*
J. B. Watkins III and K. M. Klueber	417	Hepatic phase II biotransformation in C57B1/KsJ *db*/*db* mice: comparison to that in Swiss Webster and 129 REJ mice
C. A. Pritsos, S. Ahmad, S. M. Bowen, G. J. Blomquist and R. S. Pardini	423	Antioxidant enzyme activities in the southern armyworm, *Spodoptera eridania*
C. K. Winter, H. J. Segall and A. D. Jones	429	Species differences in the hepatic microsomal metabolism of the pyrrolizidine alkaloid senecionine
Renato Batel, Nevenka Bihari and Rudolf K. Zahn	435	3-methylcholanthrene does induce mixed function oxidase activity in hepatopancreas of spiny crab *Maja crispata*
Judi A. Tilghman and Billy W. Geer	439	The effects of a choline deficiency on the lipid composition and ethanol tolerance of *Drosophila melanogaster*
Roderich Werner	445	Effect of metopirone-ditartrate on thermogenesis in the guinea-pig
L. E. Young, R. E. Young and D. A. P. Bundy	451	Neuropharmacological modulation of swimming activity and life span in a digenean parasite, *Cercaria caribbea LXXI* Cable

C. J. Duncan, Christina L. Osborne, Jennifer J. F. Parsons, Karin E. McCall and M. J. Jackson 459 Failure to detect changes in sarcolemma permeability in amphibian muscle following severe cellular damage

Yutaka Karasawa, Yohko Sugawa-Katayama and Hiroshi Danbara 461 The effect of intraperitoneally administered gold thioglucose on growth, food consumption and accumulation of gold in various organs of the chicken (*Gallus domesticus*)

E. H. Schlenker and G. Smith 465 Oral administration of diltiazem decreases ventilation and metabolism of Syrian hamsters
